

Five years ago, today, we launched the very [first issue of Twist Collective](#). We weren't sure if we'd even make it through a whole year but here we are!

Along with the designers and the customers, Twist wouldn't exist if it weren't for our generous supporters, which makes it all the more wonderful that so many of them have donated their amazing products to give away to our readers. If you're signed up for [our newsletter](#), you have already gotten a sneak peek of just a few of our prizes. To kick off the celebration of our Wood Anniversary, it seemed only appropriate give away something both handmade and wooden. We will be giving 4 randomly chosen winners a beautifully hand turned darning egg, paired with a Twist Collective [sock pattern](#) of your choosing.

These darning eggs were hand turned by my dad (this is Kate). They are Mulberry, Cherry, Maple, and Cherry (from left to right).
